

New from ARI: PREMIO®-Plus –  
extended lifetime due to Economy-Function.

# PREMIO® Reliable control with variable actuator technology!

**New from ARI:**  
now also with  
fail-safe function

PREMIO®

**NEW**  
from ARI!

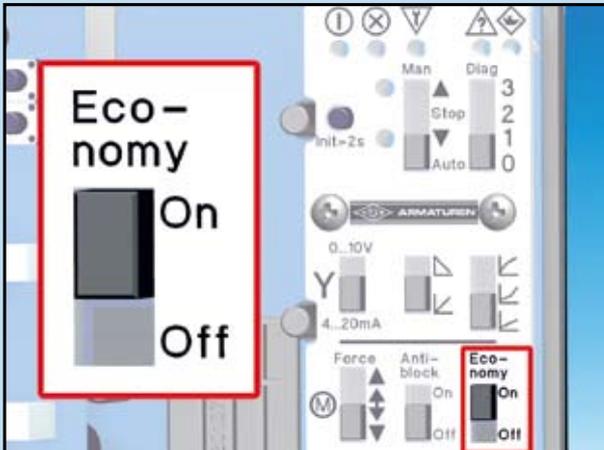

PREMIO®-Plus

Technology for the future.  
GERMAN QUALITY VALVES

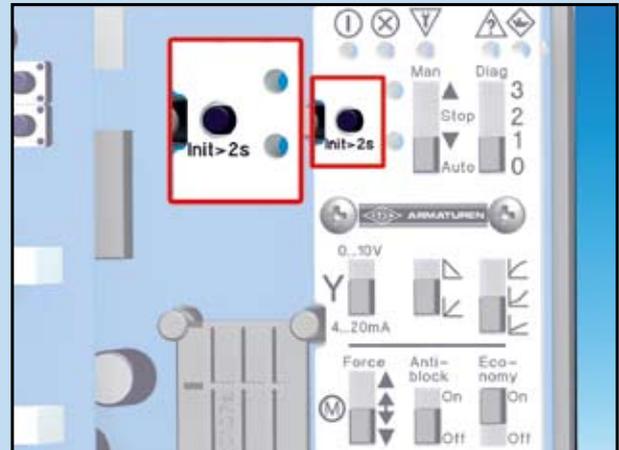

**New from ARI: With Economy-Function, self-initialisation and user friendly operator panel.**

# PREMIO®-Plus : High-Performance

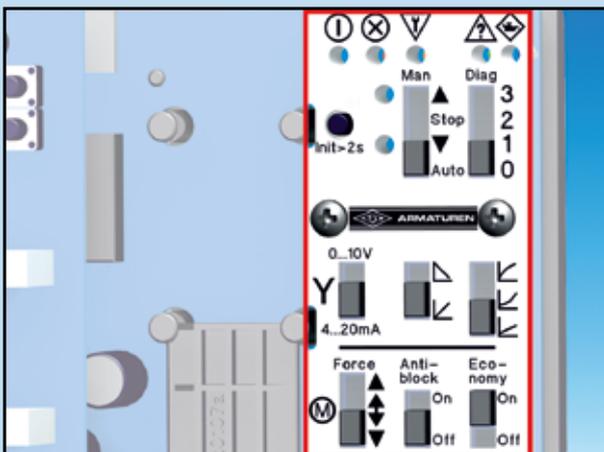

### 1. Even more durable ...

... due to Economy-Function (Economical Signal Conditioning). Prevents cycling of the valve, reducing wear.

### 2. Optimised handling ...

... due to the self-initialisation feature (automatic adjustment to the valve stroke on start-up)

### 3. Optimised handling ...

... due to the clear layout and user friendly design of the operator panel – directly on the unit (8 parameter switches)

### 4. Even more safety ...

... due to fail-safe function (optional), actuator closes the valve on power failure

## Profit from the versatile features of the FURTHER PREMIO®-range !

- Limit position disconnection with two torque switches or one freely settable switch
- Manual override
- IP65
- Actuating force: 2.2 kN, 5 kN, 12 kN or 15 kN
- Permissible ambient temperature: -20°C to +70°C
- Power supply: 230 VAC, 115 VAC, 24 VAC or 24 VDC with DC module
- Fail-safe function (optional), actuator closes the valve on power failure

Modular design for optional accessories:

- Additional limit switch
- Potentiometer
- Positioner
- Position feedback
- PID process controller
- DC module
